

PT APP

A platform for user to 報料&搵工

Introduction

Name: PartTime Go (PT Go)

Selling Point:

- User friendly, Simple, Convenient
- All in one: 1 app, all platforms, all jobs

3 Uses:

- For normal user: To browse and find part time jobs and 散工
- For "nice user": To share nice jobs (seemingly)
- For company and boss: To recruit workers (Actually)

2 Aims

1. Platform:

Consolidating all those job ads from different platforms

E.g. Facebook, Whatsapp Group, Telegram, Instagram, Different pt apps, websites and more.

2. Pretending “for the user to post and share some nice jobs offer”

- Like PinChinClub (sharing those jetso in HK)
- but actually for those companies to recruit

Flow

3 steps to operate:

1. Users/Admin input (job ads)
2. Admin filter and post (prevent spam and illegal jobs)
 - Just fast screening
 - Ensure the job ads can be posted quickly after Step 1
3. Users browse and find jobs

Step 1: User Input

User should input the following information:

- Heading
- Venue, Salary, Date, Time*
- Content, Requirement, Payment method*
- Contact

*Can be optional

➤ Like a form, like LIHKG, just add the above columns

Step 1: Admin Input

- Admin will input most of the job ads
 - One of our aims is “Consolidating all those job ads from different platforms”
- Admin responsibility:
 - like purchasing (finding goods from the world to sell)
 - Finding jobs from different platforms to post
 - Repost other jobs ads on our app

Step 2: Admin filter

- **Backstage management:** Web (Simple, Clear is enough)
- Admin's responsibility: filter and post

Flow: User input-> Admin backstage -> Posts on App

- Receiving the user input, like receiving email
- Fast screening and just click a button to post
- To prevent spam, sextual content and illegal jobs

Final stage: User experience

- Please refer to the example->
- Simple, clear and smooth design is enough
- Easy to browse
- No need pics but may add some icon (tell you later)

- Make it like this first
- 碌上碌落去睇
- 碌左碌右轉[急聘/最新/熱門] like lihkg
- Colour and Size are not decided
- Just beta version ok?
- I am good at presentation and design, don't worry

Basic Design

- Swipe right to open Menu
- Button and content not confirmed
- Still thinking, confirm later
- But make the functional part first
- Design will change, not copying lihkg
- Don't worry

More Function

- Not only the above
- More function and idea

Business model

How to make money?

Coming soon

I wrote down on my notebook

To be discussed

- Containing the source of job ads in the post
- Contact
- I have idea, tell you later
